

BIKE CLEAN

Biodegradable bicycle cleaner

Description

MOTOREX BIKE CLEAN is a solvent-free fast-action cleaner that biodegrades quickly. Special active substances quickly and efficiently dissolve stubborn, dried dirt and are particularly effective in removing oil and grease residues. The formula contains active substances that intensify the cleaning effect; the substances penetrate, soften and remove dirt from bicycles frames.

Product features

- biodegrades quickly
- neither corrosive nor toxic
- free of solvents and other organic substances (VOC-free)
- very good material compatibility
- can be diluted with any ratio of water
- optimum adhesion
- carbon-checked

Field of application

For cleaning dirty bicycles and mopeds as well as the associated equipment – particularly after off-road riding or bad weather.

Application

Spray the bicycle with the biodegradable cleaner and – depending on the amount of dirt present – leave for approx. three minutes (avoid direct sunlight). After allowing BIKE CLEAN sufficient time to act, wash the bicycle with plenty of water. To do this, use a hose with a fine spray of water (minimum distance: 20 cm). The water spray must not be pointed directly at the bearings and axles.

Notes

We strongly advise against using a high-pressure cleaner. As soon as the chain and derailleur are dry, re-lubricate them to prevent corrosion. Do not use in the sun.

Technical Data

Properties	Test according to	Unit	Values
Colour			green
Density at 20 °C		g/cm ³	1.048
